The accompanying notes are an integral part of these condensed interim financial statements.

1. NATURE OF OPERATIONS AND GOING CONCERN

NorthX Nickel Corp. ("NorthX" or the "Company") is engaged in the exploration of mineral claims located in Québec and Ontario, Canada. The Company was incorporated under the laws of the Province of British Columbia on October 26, 2018.

On May 1, 2024, the Company changed its name from Archer Exploration Corp. to NorthX Nickel Corp. and concurrently began trading on the Canadian Securities Exchange (the "Exchange") under the new symbol "NIX", replacing its former symbol "RCHR", under which it had traded since February 11, 2021.

The Company's registered and records office is located at 1200 Waterfront Centre, 200 Burrard Street, Vancouver, BC, V7X 1T2.

As at June 30, 2026, the Company had no active subsidiaries.

a) Going concern

These unaudited condensed interim financial statements for the three and six months ended June 30, 2026 and 2025 (the "financial statements") have been prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business.

There are material uncertainties that may cast significant doubt about the appropriate use of the going concern assumption as the Company is in the exploration and evaluation stage and has not generated any revenues. As at June 30, 2026, the Company has a deficit of $44,894,533 (December 31, 2025 - $44,600,629) and for the six months ended June 30, 2026 and 2025, the Company incurred a net loss and comprehensive loss of $293,904 (2025 - $639,318).

The Company's continuing operations as intended are dependent upon the ability to obtain the necessary financing to explore and commercialize its mineral claims and administer overhead expenses. Should the Company fail to commercialize its mineral claims, or raise sufficient financing to maintain operations, the Company may be unable to realize the carrying value of its net assets. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

2. BASIS OF PREPARATION

a) Statement of compliance

These financial statements were approved by the Board of Directors and authorized for issue on August 20, 2026.

These financial statements of the Company have been prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IASB").

The preparation of these financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the year. Actual results could differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimates are revised and in any future years affected.

b) Future accounting pronouncements

Accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are assessed below if applicable or are expected to have a significant impact on the Company's financial statements.

IFRS 18 Presentation and Disclosure in Financial Statements

In April 2024, the IASB issued IFRS 18 Presentation and Disclosure in Financial Statements ("IFRS 18") which replaces IAS 1 Presentation of Financial Statements. IFRS 18 introduces new requirements on presentation within the statement of profit or loss; disclosure standards regarding management defined performance measures; and principles for aggregation and disaggregation of financial information in the financial statements and the notes.

IFRS 18 will be effective for annual reporting periods beginning on or after January 1, 2027. IFRS 18 is to be applied retrospectively. The Company is currently assessing the impact that IFRS 18 will have on its financial statements.

3. MATERIAL ACCOUNTING POLICY INFORMATION

In the preparation of these financial statements, the Company used the same accounting policies as in Note 3 to the Annual Financial Statements for the year ended December 31, 2025 and 2024 ("Annual Financial Statements").

4. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of the financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, revenues and expenses. Management continually evaluates these judgments, estimates and assumptions based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates and judgments which may cause a material adjustment to the carrying amounts of assets and liabilities. The Company's interim results are not necessarily indicative of its results for a full year. The significant assumptions and estimates applied in the preparation of these financial statements are consistent with those applied and disclosed in Note 4 to the Annual Financial Statements.

8. EXPLORATION AND EVALUATION ASSETS (continued)

The Company's primary mineral property is the Grasset Project in Quebec. Although the Company has taken steps to verify title to mineral properties in which it has an interest, these procedures do not guarantee their titles. The Company is also required to make statutory license and property tax expenditures each year to maintain its properties in good standing.

Grasset Project, Québec

The Grasset Project is a resource-exploration stage Ni-Cu-Co-PGM project located in the James Bay territory in Nord-du-Québec administrative region of the province of Québec, Canada, approximately 77 kilometres west-northwest of the city of Matagami and 170 kilometres north of the town of Amos. The Grasset Project consists of 153 claims blocks and an aggregate area of 81.81 km2 located in the Archean Abitibi Subprovince of the southern Superior Province in the Canadian Shield. The Company owns a 100% interest in the Grasset Project, subject to a 2% net smelter return royalty ("NSR") on production from certain of the acquired assets.

On November 18, 2022 the Company and Wallbridge entered into an exploration cooperation agreement (the "Exploration Cooperation Agreement") whereby Wallbridge was granted the right to explore certain portions of the Grasset Project for gold under certain circumstances. The Exploration Cooperation Agreement applies to approximately 7,515 hectares of the Grasset Project and excludes approximately 665 hectares of coverage over the Grasset Deposit. If the results from either Wallbridge's or NorthX's exploration work on the 7,515 hectares that are subject to the Exploration Cooperation Agreement (the "Gold Cooperation Area") establish a mineral resource that consists of primary gold mineralization, then the parties will form a joint venture in which NorthX will have a 30% interest and Wallbridge will have a 70% interest. If the results from Wallbridge's exploration work in the Gold Cooperation Area establish a mineral resource that consists of primary mineralization other than gold, then the parties will form a joint venture in which NorthX will have a 70% interest and Wallbridge will have a 30% interest. The purpose of any such joint ventures will be to explore, develop and operate such mineral resource. The Exploration Cooperation Agreement has a term of five years and is subject to earlier termination in certain circumstances.

In accordance with the Company's accounting policy for mineral properties, exploration and evaluation expenditures are capitalized, and management applies judgment to assess whether indicators of impairment or reversal of impairment exist at each reporting date. This judgment includes considerations such as the period for which exploration rights are held, the likelihood of renewal of these rights, and the evaluation of exploration results.

The Grasset project was impaired during the year ended December 31, 2024 due to a reduction in planned exploration expenditures resulting from constrained equity market conditions.

During the six months ended June 30, 2026, management reassessed the Grasset project for indicators of further impairment or reversal. This assessment included consideration of current exploration plans, funding availability, and market conditions for comparable junior exploration and development companies.

No indicators of impairment or reversal were identified as at June 30, 2026, and accordingly no adjustments were recorded in the current period.

Northwestern Ontario

The Northwestern Ontario project is comprised of an interest in 3 properties including 587 unpatented mining claims. The Northwestern Ontario project has a total land area of land area of 128 km^2. Claims with a carrying value of $nil have been classified to assets held for sale at June 30, 2026 (December 31, 2025 - $nil). The remaining carrying value of $246,875 relates to claims retained by the Company.

During the six months ended June 30, 2026 depreciation of $820 was capitalized to exploration and evaluation assets (2025 - $1,267).

10. TRADE AND OTHER PAYABLES

A summary of the Company's trade and other payables is as follows:

	June 30, 2026	December 31, 2025
	$	$
Trade payables	**99,073**	22,360

All trade payables and accrued liabilities are due within the next 12 months.

11. SHARE CAPITAL

a) Authorized share capital

The authorized share capital of the Company consists of an unlimited number of common shares without par value.

b) Issued share capital

During the six months ended June 30, 2026, the Company had no share capital transactions:

During the year ended December 31, 2025, the Company had the following share capital transactions:

- On February 10, 2025, the Company closed a non-brokered private placement of 26,000,000 subscription receipts (each a "Subscription Receipt") at a price of $0.05 per Subscription Receipt (the "Offering"). Each Subscription Receipt will, subject to the fulfillment of certain escrow release conditions, entitle the holder thereof, for no additional consideration, to receive one unit, with each unit being comprised of one common share ("share") and one share purchase warrant ("warrant") with each warrant entitling the holder thereof to purchase one common share for a period of 36 months from the date of issuance at an exercise price of $0.075 per warrant. The shares and warrants are subject to a 12 month hold from the date of issuance. On July 18, 2025, the Company satisfied the escrow release conditions related to the Offering. Upon release, the Company issued 26,000,000 Units and the net proceeds were partially applied to meet specific cash payment obligations associated with the Sudbury Properties transaction.

- As the units are comprised of both a single common share and a single warrant, a valuation method was used to determine the fair value of the warrants. As a result, $702,154 was allocated to share capital and $597,846 was allocated to warrants reserve. A summary of the Company's assumptions used in the Black-Scholes option pricing model for unit warrants issued on July 18, 2025 is as follows:

Share price	$0.13
Exercise price	$0.075
Expected life	3 years
Expected volatility	145.41%
Risk-free rate	2.83%
Dividend yield	0.00%

- The Company issued 648,424, common shares pursuant to the settlement of omnibus awards and reclassified $510,251 from the Company's contributed surplus to share capital.

c) Warrants

A summary of the Company's warrant activity is as follows:

	Number of warrants	Weighted average exercise price

	1.32	**39,329,257**	**0.23**

d) Omnibus equity incentive plan

On June 25, 2024, the Company's shareholders passed an ordinary resolution re-approving the omnibus equity incentive compensation plan (the "Omnibus Plan") with an effective date of June 26, 2024 (the "Effective Plan Date"). The Omnibus Plan consists of (i) a "rolling" plan pursuant to which the number of common shares that are issuable pursuant to the exercise of stock options granted under the Omnibus Plan shall not exceed 10% of the issued and outstanding shares of the Company as at the date of any stock option grant; and (ii) a "fixed" plan under which the number of common shares that are issuable pursuant to all equity awards other than stock options granted under the Omnibus Plan, in aggregate is a maximum of 10% of the issued and outstanding common shares of the Company as on the Effective Plan Date.

The exercise price of each stock option is determined by the Board of Directors at the time of grant and cannot be less than the price permitted by the Canadian Securities Exchange ("the Exchange"). Currently, the Exchange requires that the exercise price of stock options must be equal to or greater than the discounted market price (as defined in the policies of the Exchange). The exercise price of stock options is solely payable in cash. The Board of Directors has the discretion to determine the term and vesting provisions of any stock options granted under the Plan at the time of grant subject to the policies of the Exchange. The fair value of DSU and RSUs is based on the closing price of the Company's common shares on the Exchange on the date immediately preceding the grant date.

The DSUs shall vest when the recipient director ceases to be a director of the Company provided that no DSUs will vest within twelve months of the grant date and are otherwise subject to the Omnibus Plan.

e) Stock options

A summary of the Company's stock option activity is as follows:

13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

a) Fair value

As at June 30, 2026, the financial instruments such as cash, investments, and trade and other payables are classified and measured at amortized cost. The carrying value of cash, investments, and trade and other payables approximate the fair value due to the relatively short-term nature of these instruments.

The Company is exposed in varying degrees to a variety of financial instrument related risks. The type of risk exposure and the way in which such exposure is managed is provided as follows:

b) Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the Company by failing to discharge an obligation. Credit risk for the Company is associated with its cash. The Company has minimal exposure to credit risk on its cash as the Company's cash is held with major Canadian financial institutions.

c) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial assets. At June 30, 2026, the Company had a cash balance of $727,256 (December 31, 2025 - $1,062,234) to settle current liabilities related to trade payables of $131,823 (December 31, 2025 - $94,927) and has assessed the liquidity risk as minimal.

13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

d) Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates and foreign exchange rates.

The Company is not exposed to significant interest rate risk on the basis that it does not hold any financial liabilities subject to variable interest rates.

Foreign currency risk is the risk that the value of the Company's financial instruments denominated in foreign currencies will fluctuate due to changes in foreign exchange rates. The Company does not use derivative instruments to reduce its exposure to foreign currency risk.

The Company is mainly exposed to foreign currency risk on financial instruments (consisting of cash and trade and other payables) denominated in USD. As at June 30, 2026, the Company does not carry significant cash and trade and other payables balances denominated in USD.
